

Trend Micro™

Internet Security Pro

Powered by the PC-cillin Engine

Powerful Protection Home and Away

Whether you are at home or on the go, Trend Micro Internet Security Pro safeguards your online transactions, identity, and irreplaceable files with the most comprehensive protection available. Get all the benefits of our proven Internet security plus enhanced identity theft protection, Wi-Fi validation, data theft protection, and system recovery.

UNIQUE FEATURES

Remote File Lock

Encrypts the folders or files you choose via Trend Secure, so an unauthorized user cannot make use of them. Helps protect PC owners against loss of theft of their computer.

Wi-Fi Advisor (Transaction Protector)

Checks the credibility and legitimacy of Hotspots and Wi-Fi networks.

Keystroke Encryption (Transaction Protector)

Protects you from keystroke recording programs that steal your personal information based on the keys you press. It scrambles the identity of your keystrokes using Local SSL technology from Blue Gem.

System Tuner (PC Tune-Up)

Cleans up your registry, temp files and startup behavior.

OTHER FEATURES

Enhanced Behavior Monitoring/ Proactive Intrusion Blocking

A set of policies prevents unauthorized changes from occurring in the first place. More proactive protection than the monitoring in Trend Micro Internet Security 2007.

Detect and Block Image Spam

Stronger than ever protection from all forms of spam.

Customizable Security Warnings

Set how often you want to be warned about security issues.

Security Activity Report

Shows security activities performed by the product. Shown to the user on a regular basis (the default is weekly).

Antivirus Security

Detects and removes viruses and the latest threats from your emails, Internet downloads, removable media and PCs. Automatic updates immunize your security system against the newest virus outbreaks.

Spyware Protection

Blocks and removes spyware, adware, grayware, and root kits that hide deep inside your computer.

Personal Firewall

Intercepts hackers and network viruses trying to attack your computer and home network.

Fraud Defense

Protects you from online phishing scams designed to steal credit card and bank account numbers. Configures easily and notifies you of the latest Web-site risk.

Wireless Network Monitoring

Safeguards against unauthorized users invading your wireless home network.

Home Network Control

Manages, configures and updates security for every PC on your network, with an easy-to-use management console.

Household License

Superior PC protection for up to 3 home or mobile computers.

Advanced Parental Controls

Parental Controls allow you to manage your children's internet activity by blocking Web sites and inappropriate content.

SOFTWARE
